

Remarks

Claims 41-80 are now pending in this application. Applicants have cancelled claims 1-40 and added new claims 41-80. Applicants have rewritten the claims to delete multiple dependencies to reduce the filing fee and to bring the claims more in line with typical U.S. format. Applicants have amended the specification to add cross-reference to the priority application, delete references to the claims, and to insert and correct section headings. Applicants have also corrected the term "paperboard" to read "cardboard" to correct a translational error. Furthermore, Applicants submit herewith on a separate sheet an abstract of the disclosure.

The undersigned authorizes the Commissioner to charge fee insufficiency and credit overpayment associated with this communication to Deposit Account No. 22-0261.

Respectfully submitted,

Date: 4/24/06
